

Overview

The NETGEAR high-quality dual-band antennas operate in the 2.4 and 5 GHz bands with 2dBi omni-directional operation to provide best-in-class balanced coverage throughout the home when used with supported NETGEAR routers. Because these antennas are omni-directional, no positioning is required for optimal performance, since these antennas can send and receive WiFi in all directions. PR-SMA connectors are compatible with many NETGEAR models.

Use these fine-tuned antennas as a replacement for damaged WiFi router antennas - that come standard with your router. Recommended to replace all antennas.

NETGEAR accessories are made by NETGEAR, and fully tested under strict SQA environment to meet the highest product quality standard.

Technical Specifications

- WiFi Standard: 2.4G 802.11b/g/n and 5G 802.11a/n/ac
- Gain: 2dBi
- Radiation: Omni
- Connector Type: PR-SMA Female connector
- Certification: FCC/UL certified
- Length: 185mm
- Weight: 223.5g
- Color: Black
- Package includes: 3pcs of 2dBi Dual band omni-directional antennas with PR-SMA connectors for NETGEAR WiFi routers
